Content:
 I am concerned regarding Apex Energy's extension of drilling deadlines spanning two drinking water catchments (Woronora and Nepean).

This contravenes Premier O'Farrell's pre-election promise when he said that it is common sense NOT to mine in any water catchment area. The Woronora/Nepean water catchment not only supplies the Illawarra but also the Sydney metropolitan area. Therefore it is crucial that it be free from CSG mining. Because it is "under lock and key" as water catchment, it is out of site and mind of the general public, therefore does not attract such an outcry. THIS WILL NOW CHANGE AS WE IN THE ILLAWARRA ARE VERY CONCERNED THAT OUR WATER REMAINS PURE.

We cannot see that this additional coal seam gas project on top of existing coal mining and a fault line, could be viable.

Please reconsider this coal seam gas project before it is too late. PUT PEOPLE BEFORE PROFITS.

Yours sincerely,
 Lindley Berrie
