Stanwell Tops, NSW
2508

Content:

I have two major concerns regarding the extension of the APEX Energy licence.

1. The area is environmentally so sensitive that people who want to bushwalk on Maddens Plains are prohibited as it is a catchment area. It is completely unacceptable to allow APEX Energy to enter the area for Coal Seam Gas mining related activities. Trucks, roads and potential wells are simply incompatible with the existing land use.
2. As a long term local resident who has experienced numerous bushfires I am very concerned with the increased risk and intensity of bushfires in the area. Stanwell Tops seems to be in a corridor that drives fires from Maddens Plains and Darkes Forest towards this isolated residential area. There is only one road out of Stanwell Tops and when that is cut due to fire we are trapped. After the Christmas fires of 2001 I experienced the speed that these fires can approach, the traffic chaos and serious risk the residents are in. Please no added risk with CSG operations
