I would like to express my absolute dismay at the governments total lack of concern for the environment and residents of the northern Illawarra and other areas of the state with the latest news on CSG. My faith in the Liberal government has been completely destroyed. I was always a supporter and pleased when labour was ousted. I will never support a government that is not true to the people who elected it and sells out as you are now doing. How can you allow CSG exploration on land that the public where the public would be prosecuted if we just walked there !

There are already concerns that current mining in the area has undermined the water catchment to Woronora Dam and two years of work pumping sealants into the ground to remediate the damage have still not succeeded. How will the CSG works be protected from bush fires. Another disaster waiting to happen. Probably it wont happen in your reign but how do you want to be remembered. Stand up for the people who elected you or be just the same as the Labour mob you replaced ? I ask the Government to say NO to mining in water catchment areas.

A Government that would say yes is NOT a government I would support in any way.
