Content:
Dear Madam or Sir,

I wish to express my opposition to extending the deadline for drilling as outlined in this modification.

There has been widespread community opposition to fracking and drilling in this area. Reasons for this include:

- Threats to the drinking water and aquifers
- Increased fire risk.
- Unassessed risk of combined extensive coalmining and drilling/fracking in this region.

Given that the local community has repeatedly expressed its opposition to this proposal I find it frustrating that you continue to ignore the community's voice. Particularly in light of the fact that the current State government claimed it would defend the area from this type of disregard for the environment prior to the last election.

Yours faithfully,
Matt Radzyner.
