Address:
252 Wilson St

Darlington, NSW
2008

Content:

This is a terrible idea - we cannot risk Sydney's water supply by drilling coal seam gas wells right in the middle of the catchment area.

Furthermore, this development poses a threat to the remaining patches of native bush in the greater Sydney area.

This applications must be rejected, to protect the integrity of the native bushland in which these wells would be sited, and to protect Sydney's water supply.
