

Contents

1	Introduction	1
1.1	Background	1
1.2	Purpose of the report	2
1.3	Planning and development process	4
1.3.1	<i>Project development process</i>	4
1.3.2	<i>Project approval process</i>	6
1.3.3	<i>Other project approvals</i>	7
1.4	Consultation	8
1.4.1	<i>Consultation with the community</i>	8
1.4.2	<i>Consultation with government agencies</i>	9
1.4.3	<i>Key issues</i>	9
1.4.4	<i>How the community influenced the preliminary design</i>	10
2	Need for the Proposal	11
2.1	Need	11
2.2	Proposal objectives and design principles	13
2.2.1	<i>Pacific Highway Upgrade program objectives</i>	13
2.2.2	<i>Warrell Creek to Urunga Project objectives</i>	13
2.2.3	<i>Design principles</i>	14
3	Route options development and assessment	15
3.1	Key characteristics of the study area	15
3.1.1	<i>General</i>	15
3.1.2	<i>Traffic and transportation</i>	18
3.1.3	<i>Land use constraints and issues</i>	18
3.1.4	<i>Economic considerations</i>	18
3.1.5	<i>Environmental issues</i>	19
3.2	Route options development and assessment	22
3.2.1	<i>Macksville to Urunga section</i>	22
3.2.2	<i>Warrell Creek section</i>	25
4	Design development	29
4.1	Alignment design issues and responses	29
4.2	Interchange design issues	29
5	Proposal description	35
5.1	Overview	35
5.2	Highway design standards	36
5.3	Staged construction	37

6	Preliminary assessment of impacts and potential management measures	38
6.1	Preliminary assessment of impacts	38
6.1.1	<i>Community impacts</i>	38
6.1.2	<i>Biological and physical impacts</i>	46
6.1.3	<i>Proposal assessment</i>	54
6.2	Proposed scope of environmental assessment	74
6.2.1	<i>Key issues for environmental assessment</i>	74
6.2.2	<i>Other issues for environmental investigations</i>	76
7	References	78
Appendix A	Study team	79
Appendix B	Route options for Warrell Creek section	81
Appendix C	Draft Statement of Commitments	84
