

Modification of Minister's Approval

Section 75W of the *Environmental Planning & Assessment Act 1979*

As delegate of the Minister for Planning and Infrastructure, under delegation from the Minister enforced from 1 October 2011, I approve the modification of the project application referred to in Schedule 1, subject to the conditions in Schedule 2.

A/ Director Infrastructure Projects
DEPARTMENT OF PLANNING & INFRASTRUCTURE

Sydney

19 January

2012

SCHEDULE 1

Project Approval:

07_0121 granted by the Minister for Planning on 1 June 2009.

Construction and operation of the Camellia and Rosehill Recycled Water Scheme in Western Sydney which comprises:

- recycled water treatment plant, pumping station, water storage tanks and other equipment at North Street, Fairfield;
- a connection to the existing Liverpool to Ashfield pipeline;
- one elevated surface water storage reservoir at Woodville Golf Course, Barbers Road, Guildford;
- two surface reservoirs and one pumping station on Durham Street and Grand Ave, Rosehill;
- approximately 20km of water distribution pipelines.

Modification:

MP 07_0121_Mod 4: discharge of recycled water from the distribution pipeline during network dewatering.

SCHEDULE 2

This approval is modified as follows:

1. Delete condition 1.1 and insert the following:

1.1 The Proponent shall carry out the project generally in accordance with the:

- a) Major Project Application 07_0121;
- b) Rosehill Recycled Water Scheme, Environmental Assessment, prepared by Parsons Brinckerhoff and dated January 2009;
- c) Camellia and Rosehill Recycled Water Scheme Preferred Project Report, prepared by Jemena Asset Management and dated 19 March 2009;
- d) Environmental Assessment of the Modification to the Rosehill Recycled Water Project, prepared by Jemena Asset Management and dated 19 March 2009 and supplementary letter to the Department of Planning from Parsons Brinckerhoff Australia Pty Ltd regarding commitments at Woodville reservoir dated 30 March 2010;
- e) Environmental Assessment of the modification to the Camellia and Rosehill Recycled Water project, prepared by Parsons Brinckerhoff Australia Pty Ltd and dated May 2010 and supplementary letter to the Department of Planning dated 18 June 2010 from Parsons Brinckerhoff Australia Pty Ltd providing additional information on matters considered inadequately addressed;
- f) Modification application (MP07_0121 Mod 3) and supplementary information provided by letter dated 7th April 2011 from Veolia Water Australia to the Camellia and Rosehill Recycled Water Project;
- g) Modification application (MP07_0121 Mod 4) and supplementary information titled *Rosehill and Camellia Recycled Water Scheme Due Diligence Report – Proposed discharge of recycled water to land and water during network dewatering* dated 13 September 2011; and
- h) the conditions of this approval.

2. Delete condition 1.2 and insert the following:

1.2 In the event of an inconsistency between:

- a) the conditions of this approval and any document listed from condition 1.1 a) to 1.1 g) inclusive, the conditions of this approval shall prevail to the extent of the inconsistency; and
- b) any document listed from condition 1.1 a) to 1.1 g) inclusive, and any other document listed from 1.1 a) to 1.1 g) inclusive, the most recent document shall prevail to the extent of the inconsistency.

3. Insert the following after condition 6.5(c):

- d) a **Recycled Water Release Plan** to detail measures to be implemented during pipeline dewatering. The Plan shall be prepared in consultation with relevant Councils, prior to the release of recycled water and include, but not be limited to:
 - i) the identification of water volumes and quality parameters to be released, including no release of water that is 'out of specification', the dechlorination of large volumes of water (> 1ML), and no release of water to land where chlorine levels are greater than 2mg/L;
 - ii) release methodology, including no release of water directly to waterways, or which results in scour and erosion, or has the potential for local flooding;
 - iii) notification and reporting procedures to Councils prior to, during and following each release event, and in the AEMR required by condition 7.3;
 - iv) water quality recording and contingency measures for water which does not meet reuse standards;
 - v) traffic management measures; and
 - vi) post-release inspection and cleanup measures.

6.6 Within 3 months of:

- the submission of an incident report under condition 7.1 above;
- the submission of an annual review under condition 7.3 above; or
- any modification to the conditions of this approval (unless the conditions require otherwise),

the Proponent shall review, and if necessary revise, the OEMP required under condition 6.4 and the management plans required under condition 6.5 of this approval, to the satisfaction of the Director-General.

Note: This is to ensure these documents are updated on a regular basis, and incorporate any recommended measures to improve the environmental performance of the project.
