Dear Sir/Madam

Modification Request for the Uni. of Sydney
Abercrombie Precinct Redevelopment
Application No: MP07-0158 MOD3.

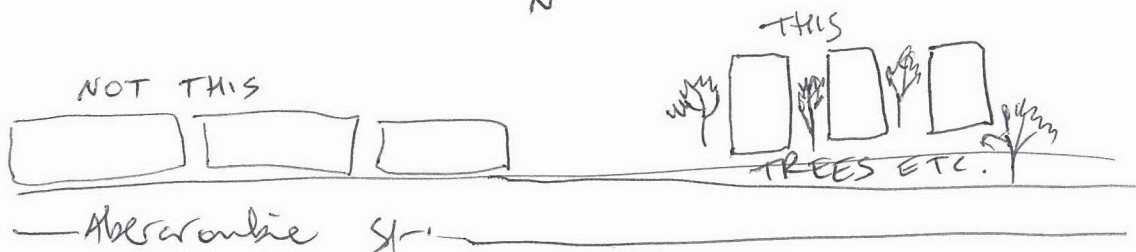

I am a resident of Darlington and I am writing to you to object to the above development modification.

My main objection is that the frontage of the building faces east. For practical reasons (eg temperature control) it should face north.

The current three pods in the design should be separated, so that each pod faces north.

This might enable the Abercrombie St. frontage to be set back from the road further (appeasing the residents opposite)

i.e.

Yours faithfully
P. Quarry.
P. Quarry (Ms.)
