

Mr Sanjeeb Rajbhandari
Environmental Compliance Officer
Dongwha Australia
1 Sandy Lane
BOMBALA NSW 2632

24/11/2021

Dear Mr Rajbhandari

**Dongwha Sawmill (MP07_0161)
Air Emissions Management Plan**

I refer to the updated Air Emissions Management Plan (AEMP) which was submitted in accordance with Condition 3A of Schedule 3 and to address the requirements set out under Condition 6 of Schedule 3 of the consent for the Dongwha Sawmill (MP07_0161).

The Department consulted with the Environment Protection Authority (EPA) during its review of the AEMP and notes the EPA has advised the Department of a Pollution Study and Environmental Risk Assessment (ERA) that will be occurring and will determine future concentration limits and monitoring requirements for discharge point 38. The EPA has recommended that following the completion of the ERA and any associated variations to the environment protection licence for the site, the AEMP should be revised and updated accordingly. Depending on the nature of any updates, the revised AEMP may require the subsequent approval of the Planning Secretary.

The Department has carefully reviewed the updated AEMP and is satisfied that it meets the requirements of Condition 6 of Schedule 3.

Accordingly, the Planning Secretary has approved the updated Air Emissions Management Plan (Revision H, dated 12 October 2021). Please ensure that the approved plan is placed on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact David Koppers at david.koppers@planning.nsw.gov.au or 9373 2869.

Yours sincerely

Chris Ritchie
Director
Industry Assessments

As nominee of the Planning Secretary
