Dear Mr Ritchie,

Hunters Hill Remediation Project (08_0008) Proposed Modification

I am writing in response to your invitation of 9 December 2021 to provide comment on Property NSW's request to modify planning conditions within Modification Application Number 08_0008.

The Environment Protection Authority (EPA) has reviewed the letter from PNSW (undated) and the *draft* Transportation Management Plan prepared by US-Ecology dated 3 December 2021.

The EPA notes that the modification is for the transfer of the Restricted Solid Waste from Hunters Hill to Lonsdale South Australia prior to being transported to a licenced waste disposal facility in the United States of America.

It is noted that there are no changes in the use of an auditor accredited under the Contaminated Land Management Act 1997 and that the excavation of the material from the site will be under the supervision of ANSTO.

The EPA has no comments on or objections to the modification.

Should you require further information please contact Maria Bowen on (02) 9995 5618 or maria.bowen@epa.nsw.gov.au,

Yours sincerely

16 December 2021
