EXISTING LANDSCAPE FEATURES & LANDSCAPE DESIGN

The landscape treatment for the proposed development is designed to provide the development with an attractive setting for the building, maintaining the integration and privacy.

Plant selection is designed to provide a high quality, low maintenance and low water consumption landscape. Plant selection is based on the site conditions, including the soil type, climate, and the building's orientation. The landscape design is based on the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.

Plant selection is based on the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape. Plant selection is based on the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.

LANDSCAPE DESIGN

The proposed landscape for the proposed development includes the following elements:

- A general landscape design including the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.
- A general landscape design including the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.
- A general landscape design including the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.

Known building to include tanks and pump-out station.

Publicly owned.

The proposed landscape design includes the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape. The proposed landscape design includes the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.

Start of new lot.

Outline of existing building to be demolished.

LANDSCAPE DESIGN

The proposed landscape design includes the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.

Publicly owned.

The proposed landscape design includes the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape. The proposed landscape design includes the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.

LEGEND:

	TURFED AREA		AMENITY SHADE TREE		GRAVE MOISTURE BARRIER
	EXISTING TREE		SMALL FLOWERING TREE		CONCRETE PAVING
	EXISTING TREE TO BE RETAINED		DECOMPOSED GRANITE PAVING		LIME PAVING
	PLANTING BED				

EXISTING FEATURES

The existing landscape features and elements of the existing building will be retained and integrated into the proposed landscape design.

CONCEPT DESIGN TO CONSIDER

- The proposed landscape design for the proposed development includes the following elements:
- A general landscape design including the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.
- A general landscape design including the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.

CONCEPT DESIGN

The proposed landscape design for the proposed development includes the following elements:

LANDSCAPE DESIGN

- The proposed landscape design for the proposed development includes the following elements:
- A general landscape design including the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.
- A general landscape design including the building's orientation and the building's form, providing a high quality, low maintenance and low water consumption landscape.

LANDSCAPE DESIGN

The proposed landscape design for the proposed development includes the following elements:

LANDSCAPE DESIGN

The proposed landscape design for the proposed development includes the following elements:

LANDSCAPE DESIGN

The proposed landscape design for the proposed development includes the following elements:

REV.	DATE	DETAILS	INITIAL	REV.	DATE	DETAILS	INITIAL
1	10.0.2008	CONCEPT LANDSCAPE DESIGN	DB				
2	10.0.2008	REVISIONS TO CONCEPT LANDSCAPE DESIGN	DB				

Figured dimensions take precedence over those shown. Verify all dimensions on site before commencing any work or shop drawings. If any doubt as to the work executed is verified in the Principal's Consultation.
