Modification No. \_\_\_\_\_

## 1. Before you lodge

This form is required under section 75W of the *Environmental Planning and Assessment Act 1979* (the Act) in order to request the Minister to modify the Minister's approval to carry out a project or concept plan to which Part 3A of the Act applies.

Before making this request, it is recommended that you first consult with the Department of Planning (the Department) concerning your modification. The Director-General may issue environmental assessment requirements that must be complied with before your request will be considered by the Minister. If the changes proposed by the modification will result in a project that is consistent with the existing approval, the Minister's approval for a modification is not required.

### 5. Describe the modification you propose to make to the approval

Describe the proposed modification

Project Approval was given for the Rotogravure process, which required storage of approximately 145m<sup>3</sup> of Toluene; a Class 3 Dangerous Good. This triggered the requirement for a Preliminary Hazard Analysis under SEPP 33, and DOP provided specific environmental conditions regarding Hazards and Risk in clause 24, requiring a Fire Safety Study, HAZOP and Final Hazard Analysis. The Heat Set Web Offset (HSWO) printing process that is now to be used does not require storage of toluene. Rather than toluene, a similar quantity of ink (not classified as a Dangerous Good), and a much smaller quantity (approximately 3 m<sup>3</sup>) of Class 3PGIII Dangerous Goods would be stored.

As the Dangerous Goods responsible for the requirements detailed in Condition 24 (a), (b) and (c) of the Project Approval will not now be stored at the site, we request that the condition be removed.

Your modification request may need to be accompanied by an Environmental Assessment, including plans. An electronic and hard copy of this document will be required.
