SPECIFICATION NOTES

On Structure Planters
Planter Beds - All on structure planter beds are to be constructed with stab protection, drainage layers, geofabric & air cell panels
Soil Mixes - will consist of a layer of standard garden mix over a blended coarse layer of washed sand and soil 600-800mm deep
Mulch - organic mulch will be applied to all general garden beds. Some feature planter beds associated with the Hotel deck will have pebble mulch
Irrigation - all new garden beds are to be irrigated as per the current operational irrigation scheme for the Star City Complex.

Public Domain
Tree Protection - All existing street trees to be retained are to be protected during demolition and construction
Paving - all new public domain paving will be in accordance with the City of Sydney's Technical Specifications for CSD streetscape works
Planter Beds - All public domain planting will have structural & garden bed soils in accordance with the City of Sydney's specification
