

10.6 Level 5 Sky Terrace

The Level 5 “Sky Terrace” provides further amenities for Star resort guests and residents. It will include a day spa, gym and pool facilities towards the west, various food and beverage tenancies towards the east and the views, and a central flexible space to host open-air events; much like the present level 3. The sky terrace will be well connected to other resort facilities including two means of DDA access at either side of the terrace.

Access and Arrival

The journey to the level 5 sky terrace will lead through the “circulation drum” or trium . This atrium guides guests from Pirrama road through the Star resort up to the sky terrace. On level 5 guests arrive to framed view of Darling Harbour and the Sydney Skyline. Additionally, the sky terrace is accessible to Astral residents and Astral Hotel guests through rain protected pathways connecting into existing circulation cores. Furthermore, level 5 sky terrace contains access to the level 7 star pool and a new connection to the MUEF. DDA access and BOH servicing will be provided through extending already existing lifts.
