Dear Heidi,

Re: Integra Underground Project Approval 08_0101, Schedule 3 Condition 29 – Bettys Creek Diversion

In accordance with Schedule 3 Condition 29 of Project Approval 08_0101, Integra Underground has undertaken a detailed survey of geotechnical, geomorphic and ecological baseline condition of the Mt Owen Bettys Creek Diversions. Condition 29 of Schedule 3 states:

Schedule 3, Condition 29

29. The Proponent must:

(a) commission a suitably qualified and independent expert, whose appointment has been approved by the Secretary, to carry out a detailed survey of geotechnical, geomorphic and ecological baseline condition of the Mt Owen Bettys Creek Diversions:

- prior to carrying out any second workings under the creek diversions; and*
- within 6 months of completing the second workings under these creek diversions; and*

(b) provide a copy of these surveys to the Department within a month of the completion of each survey.

To satisfy the requirements of Condition 29(b), please find attached a copy of the Integra Underground Bettys Creek Stream Health and Stability Report (June 2020). This survey was undertaken within 6 months of completing the second workings under these diversions.

Please don't hesitate to contact me on 0427 928 906 or at Chloe.Piggford@glencore.com.au if you wish to discuss any aspect of this report.

Yours sincerely

Chloe Piggford
