Dear Matthew,

Re: Project Approval 08_0101 Schedule 2 Condition 9 – Surrender of Consents and Approvals

Integra Underground is required to surrender Development Consent 105/90 and Project Approvals 06_0057 and 06_0213 in accordance with Condition 9 of Schedule 2 of Project Approval 08_0101. An extension for the surrender was granted until 30 March 2022 by Department of Planning, Industry and Environment on 12 March 2020. At this time, the Department requested a progress report on this matter by 30 March 2021. Please find this progress report herein.

Previously, Integra Underground has completed:

- Compliance report to fulfil the requirements of Clause 97 (3)(e)(i) of the Environment Planning and Assessment Regulation 2000 relating to surrender of Development Consent 105_90;
- Provision of letters to all relevant land owners requesting consent to surrender the consent and approvals, and associated consultation.

Integra Underground has progressed this matter in the past 12 months, including:

- Review of title searches and confirmation of current landholders;
- Reissue of correspondence to landholders from whom consent has not been received, requesting consent to surrender the consent and approvals; and
- Phone calls to individual landholders to explain the request for their consent and respond to queries and requests for information.

As a result of progressing this matter during the past 12 months, consent has been received from additional private landholders, including three local community members. Notwithstanding, Integra Underground has been unable to obtain consent from all landholders at this stage. Integra Underground will continue to seek consent from all relevant private landholders in line with the requirements of Project Approval 08_0101 for the surrender of the consent and approvals.

Yours sincerely

Chloe Piggford
Environment & Community Manager
