Subject: INTEGRA NORTH OPEN CUT MODIFICATION: 08-010 / 08-0102 MOD 2

Dear Sir / Madam,

I refer to the above Modification to Integra North Open cut Mine located at Singleton NSW.

I am being directly affected by this mine by way of: Noise, dust, vibration blasting and visually.

I am emailing you to protest and reject the thought of extending the hours of the open cut.

I also approve of the conveyor, this conveyor will reduce the truck movement and dust I hope.

I already listen to enough of the noise and do not want any more.

My life is ruined because of this mine and there is no out of this horrible situation, as the mine refuses to purchase my property and the Independent Review resulted in a "not noisy enough to make them buy me out response" from the DPP.

May I suggest that the DPP come and live in my house as see if they like being woken to crashing rocks and chattering and whirring of motors every morning and also cleaning and sweeping the toxic dust from outside and inside my house.

Reards,
Chris Craven (nee Jensen)
