I refer to the Historic Archaeological Assessment (dated March 2022) which has been prepared in accordance with condition 43 of Schedule 3 of the Rix's Creek North Open Cut development consent (MP 08-0102).

The Department has carefully reviewed the document and notes that assessment concluded that there are no areas of potential archaeological deposit within the assessment area and prescribed a series of recommendations regarding ongoing management of potential historic and archaeological values.

Accordingly, the Secretary considers that The Bloomfield Group has satisfied its requirements under condition 43 of Schedule 3, subject to adhering to the recommendations made by OzArk Environment and Heritage in its assessment.
