BASS POINT QUARRY PROJECT – MODIFICATION 2 (MP 08_0143 MOD 2)

Dear Melissa

Roads and Maritime Services (RMS) refers to your email dated 16 February 2018 regarding the above application to modify the project approval for the Bass Point Quarry Project.

RMS has completed an assessment of the proposed modification, based on the information provided and focussing on the impact to the state road network. For this development, the key state road is the Shellharbour Road. Other roads on which transport of product associated with the use will occur, to gain access to Shellharbour Road, are local roads managed by Shellharbour City Council

RMS notes that the proposed modification, in part, seeks to:

- Increase in the maximum number of trucks that may be despatched from the quarry during the morning shoulder period from:
 - 23 to 27 trucks between 5 AM and 6 AM (4 additional trucks);
 - 23 to 38 trucks between 6 AM and 7AM (15 additional trucks).

It is also noted that the modification proposes no change to the currently approved transport route and the approved maximum number of trucks on any day (i.e. 500).

Having regard for the above RMS does not believe the modification will have a significant impact on the state road network. On this basis RMS does not object to the modification application.

Upon determination of this matter, it would be appreciated if the NSW Department of Planning and Environment could email a copy of the Notice of Determination to RMS via development.southern@rms.nsw.gov.au.

If you have any questions please contact Andrew Lissenden on 4221 2769.

Yours faithfully

A handwritten signature in blue ink, appearing to read 'Chris Millet', with a stylized flourish at the end.
