## **Extension request – lodgement of revised management plans**

### **Bass Point Quarry (MP 08\_0143)**

Dear Ms Dragicevic,

Hanson have been undertaking revision of several management plans, following completion of the 2020 Independent Environmental Audit and receipt of the Independent Environmental Audit Report.

Lodgement of the revised plans was due to be completed by the end of January 2021. However, the management plans are at varying stages of completion.

Hanson wishes to formally request an extension for lodgement of the following management plans:

- Air Quality Management Plan
- Noise and Blast Management Plan
- Transport Management Plan
- Environmental Management Strategy
- Surface Water Management Plan

Hanson intends to lodge these plans as soon as practicable and would be grateful for an extension of 2 months (i.e. lodgement at the end of **March 2021**).

Four management plans have been lodged in the Major Projects portal but are not yet at the 'Assessment' stage:

- Cultural Heritage Management Plan
- Groundwater Management Plan
- Killalea Lagoon Management Plan
- Landscape Management Plan

These plans are still undergoing consultation with the relevant agencies and will be finalised for assessment by the Department as soon as practicable.

Please do not hesitate to contact me if you have any questions about the above.

Kind Regards,

**HANSON CONSTRUCTION MATERIALS PTY LTD**
