**Disclaimer**

This report has been prepared based on the information supplied by the client and investigation undertaken by Insite Planning Engineering Economic & Social & other consultants. Recommendations are based on Insite Planning Engineering Economic & Social's professional judgement only and whilst every effort has been taken to provide accurate advice, Council and any other regulatory authorities may not concur with the recommendations expressed within this report. This document and the information are solely for the use of the authorised recipient and this document may not be used, copied or reproduced in whole or part for any purpose other than that for which it was supplied by Insite Planning Engineering Economic & Social. Insite Planning Engineering Economic & Social makes no representation, undertakes no duty and accepts no responsibility to any third party who may use or rely upon this document or the information.

Please note that while every effort is made to provide sound advice based on current scientific data, field work and available information, due to the nature of agriculture and land assessment with its variability from commodity price changes, variable enterprises, and environmental variability (soils, water, climate variability) no liability is accepted for losses, expenses or damages occurring as a result of information in this document. A full soil and agricultural survey did not occur over all parts of every property.
