Subject: Amendment to Ulan Underground Extraction Plan (Subsidence Monitoring)

Dear Ms Stuart

I refer to the document titled Ulan Underground Extraction Plan Longwalls LW30 to LW32 and LWW6 to LWW8 (Version 5.1). I note approval is sought for minor revisions to the Extraction Plan approved by the Department on 29 September 2023 under the consent for the Ulan Coal Mine – Expansion Project (MP08_0184).

I note the document has been revised to amend the frequency of subsidence monitoring along Subsidence Survey Lines F and H; and reflect minor changes to referencing the recently approved Addendum – Mona Creek Rock Shelter Sites TARP (Appendix I).

The Department notes that the frequency of monitoring included in the approved Extraction Plan along Subsidence Survey Lines F and H was included in error and was not recommended in the subsidence assessment.

Accordingly, as nominee of the Planning Secretary, I approve the Ulan Underground Extraction Plan Longwalls LW30 to LW32 and LWW6 to LWW8 (Version 5.1).

You are reminded that if there are any inconsistencies between the Plan and the conditions of approval, the conditions prevail. Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Jack Turner on 9995 5387.

Yours sincerely

Stephen O'Donoghue
Director
Resource Assessments
As nominee of the Planning Secretary
