Dear Mr Allan

**Ulan Coal Expansion (08\_0184)  
Spring Gully Cliffline Management Area**

I refer to your letter dated 11 November 2021 in relation to the Spring Gully Cliffline Management Area (the area) which has been reserved for conservation in accordance with the above development consent.

I understand that the above development consent indicates that the area consists of 273 hectares (ha) of native vegetation. However, detailed ground surveys have identified that the area reserved to total 272.3 ha.

The Department notes that this difference is minor and is the result of spatial mapping discrepancies. The Department therefore considers that the area has been offset generally in accordance with the development consent.

If you wish to discuss the matter further, please contact Gen Lucas on 9274 6489.

Yours sincerely
