Global Switch, 273 Pyrmont Street, Ultimo - Extended Hours Noise and Vibration Impact Assessment - Confirmation of Assessment to Surrounding Residential Properties

This letter confirms that predicted construction noise levels detailed in Table 6 of the Noise Impact Assessment (NIS) report, were made to the residential properties located directly opposite the site (both multi-storey residential properties, one along Quarry Road and another at the corner of Quarry Road and Pyrmont Street), as detailed in section 2 of the report and illustrated in Figure 2. The construction noise objectives summarised in Table 3, also illustrates the type of receiver as residential properties.

We trust this information is satisfactory. Please contact us should you have any further queries.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Yogendra Kalkunte', is written over a light blue circular stamp.
