To Whom It May Concern:

RE: Public Art - 1 Denison St North Sydney

I am writing regarding a major public artwork being commissioned by Winten Property Group and managed by our firm Creative Road, for the development 1 Denison St North Sydney.

Nike Savvas, one of Australia's preeminent visual artists has been selected for the commission. Her artwork concept *Epic Expander* is a large-scale suspended artwork comprising over 9000 custom made glass orbs and will be installed in the public through sitelink between Denison and Spring St.

The artwork is currently in design development with specialist art suspension engineers Arup, who are drawing on their global team of wind and glass specialists to deliver the optimal design.

Due to the engineering complexity of this artwork and lead times required to source the glass components from overseas, we are seeking an extension to install the artwork by the final OC. This additional time will enable us to deliver an exceptional public artwork for North Sydney.

Should you require any further information regarding this project please don't hesitate to call me on 0404 087 443.

Sincerely,

Rebecca Townsend
Creative Director
