Subject: Online Submission from john brown (object)

I live only 500m away form this plant, It emits noise particulary at night,It also emits fine dust which can be seen late in the afternoon with the sun setting behind it and at night, This is not to be confused with steam which does emit from the same stack, one of the conditions for the approval of the original factory was that landscaping (trees and vegetation where to be established) but none this has ever be done, So we have A big tin shed on a baron block of land , the only buffer was done buy the owner of the now closed golf club, It is a visual eyesore and polluter for the residents of west rutherford and should be refused any further expansion

Name: john brown

Address:
18 belair cl, rutherford

IP Address: cpe-58-164-73-216.ins1.ken.bigpond.net.au - 58.164.73.216
