Dear Chris

**09_0025 MOD 1 - RE-EXHIBITION - ORANGE WASTE PROJECT
YOUR REFERENCE 09/01541 (LETTER DATED 17 MAY 2012)**

Thank you for the invitation to comment on the re-exhibition of the Orange Waste Project Modification.

I write as Council's representative and as Director Development Services, in charge of strategic planning and development within the LGA.

I can see no significant issues associated with this modification. The impacts of the change seem minimal and the modification does not challenge any of Orange's Strategic Planning initiatives or goals and sits within an appropriate zone (as it applies to our LGA).

I cannot, of course, provide similar comment on the components of the project that sit within the Cabonne Shire, other than to say they also appear minimal and with no increased impact.

Yours faithfully

David Waddell
DIRECTOR DEVELOPMENT SERVICES
