In the submissions that have already been made, the legal objections to this proposal, and the negative impact on neighboring residents have been clear expressed. I wish to add my strong support to these objections.

In addition to the building itself blocking sunlight to existing homes, the large influx of residents can only add to the strain of living and functioning in an over developed Chatswood. While the developers make a profit then leave the area, residents who have called Chatswood home for many years will be left to deal with the consequences of devalued property and demoralised living conditions. Given the fact that it is such a major project, I cannot help but feel that I have been ambushed by the short notice given to neighboring residents to review the plans.
