Dear Sir/Madam,

RE: PROPOSED ORCHARD HILLS WASTE RECYCLING & MANAGEMENT FACILITY

We are writing to inform you that as of 19 August 2008, Dellara Pty Ltd became the new owner of the former Erskine Park Quarry (123-179 Patons Lane). It is our intention to seek approval to establish and operate a waste recycling and management facility within the former quarry. The site would be progressively rehabilitated and returned to farmland suitable for ongoing grazing. As part of the proposal, Dellara Pty Ltd would also upgrade Patons Lane.

We have engaged a team of consultants to assist us in preparing a preliminary design and layout for the proposed facility and to commence environmental investigations. Our company places considerable emphasis on the need to consult with the local community during the final project design stage to ensure all issues relevant to the local community are addressed in the design and ongoing operational mitigation measures. This letter serves to introduce ourselves and to initiate our program of community consultation.

Following the finalisation of the preliminary design and investigations, likely in March this year, we will forward to you as part of Stage 2 of our program an information and feedback package and would be pleased to discuss with you any comments or suggestions.

Should you have any questions or wish to discuss any matter in the meantime, please don't hesitate to contact me on 9299 5400.

Yours sincerely,

RICK MILLER

Director

RE: PROPOSED ORCHARD HILLS WASTE RECYCLING & MANAGEMENT FACILITY

As discussed on Tuesday (27 January 2009), Dellara Pty Ltd settled on the purchase of the former Erskine Park Quarry (123-179 Patons Lane) on 19 August 2008. It is our intention to seek approval to establish and operate a waste recycling and management facility within the former quarry. The site would be progressively rehabilitated and returned to farmland suitable for ongoing grazing. As part of the proposal, Dellara Pty Ltd would also upgrade Patons Lane.

We have engaged a team of consultants to assist us in preparing a preliminary design and layout for the proposed facility and to commence environmental investigations. Our company places considerable emphasis on the need to consult with the local community during the final project design stage to ensure all issues relevant to the local community are addressed in the design and ongoing operational mitigation measures. This letter serves to introduce ourselves and to initiate our program of community consultation.

Following the finalisation of the preliminary design and investigations, likely in early March this year, we would like to meet with you to further discuss the proposed facility and your comments or suggestions.

Should you have any questions or wish to discuss any matter in the meantime, please don't hesitate to contact me on 9299 5400.

Yours sincerely,

RICK MILLER
Director
