Dear Resident

Re: Orchard Hills Waste and Resource Management Facility

I am writing to advise you that Dellara Pty Limited has recently requested the Department of Planning withdraw the documentation on exhibition relating to the above project.

The documentation was withdrawn due to the recognition that some minor potential inconsistencies have been identified between the *Environmental Assessment* and some of the Specialist Consultant Studies relating to the maximum tonnage of waste to be received at the facility. Whilst not affecting any of the outcomes of the assessments of impact, Dellara considered it appropriate to request the withdrawal of the documentation, adjust the relevant reports and resubmit the documents for a new exhibition.

In light of the above, we will re-send you a new CD with the modified documentation immediately prior to the new exhibition period.

Yours sincerely

Robert W. Corkery
