19 April 2010

**RE: ORCHARD HILLS WASTE & RESOURCE MANAGEMENT FACILITY –
INFORMATION EVENINGS**

As outlined in our letter dated 18 February 2010, Dellara Pty Limited withdrew the documentation relating to the above project from public exhibition. We recognised that some minor potential inconsistencies were identified between the *Environmental Assessment* and some of the Specialist Consultant Studies relating to the maximum tonnage of waste being delivered to the facility or clay/shale transported from the facility.

These amendments, together with some other improved design aspects have been reflected within the relevant reports in the *Specialist Consultant Studies Compendium*. It is noted that the amendments have not negatively affected the outcomes of the environmental assessments included in each of the Specialist Consultant Studies and in some cases have decreased the level of potential impacts.

I would like to invite you to attend one of three information evenings early during the public exhibition period to learn about the Project and to discuss any questions with Dellara and the specialist consultant team. **The information evenings will be held at "Mamre" Homestead (Mamre Road, St Marys) on Tuesday 27th, Wednesday 28th and Thursday 29th of April 2010, from 4pm to 8pm.** The information evenings are intentionally informal to allow interested residents to drop in for 15 minutes or stay for an hour or more. We look forward to your attendance on one of these evenings.

Yours sincerely,

RICK MILLER
Director
