**RE: INTRODUCTION TO 2019 ANNUAL RETURN**

Dear reader,

Please find attached to this letter Richmond Quarry's Annual Review for the 2019 Calendar Year.

As you are aware, Richmond Quarry suspended quarrying activities on Wednesday the 22<sup>nd</sup> of May 2020. Following this date, only existing stockpiled materials was transported from the site to reduce the size / volume of the stockpiles. No processing of quarried materials was conducted following the suspension of the quarry. Company management are in the progress of determining the future plans for the quarry in the longer term.

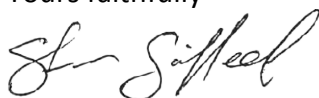

The site is being managed to ensure the sites key environmental aspects are managed in accordance with the site approval and EPA licence conditions.

The report has been formatted to meet the requirements of the Annual Review Guideline – October 2015.

Please note as required in Section 5 of Schedule 5 of the approval , Richmond Quarry have reviewed the strategies, plans and programs whilst completing the 2019 Annual Review. Richmond Quarry has determined that no changes are currently required to these plans due to their adequacy and current quarry suspension.

If there are any questions relating to this Annual Return please feel free to contact me on 02 6674 7656 or [compliance@solo.com.au](mailto:compliance@solo.com.au).

Yours faithfully

Steve Scifleet

QSE Manager
