Dear Phillip,

Electricity Network Connection Application at: Establishment Of 2 New Kiosks S.78182 & S.78183 & Removal Of Existing Substation S.6037 At Lot 100 Gardeners Rd East Lakes

Offer to provide standard connection services for contestable ASP/1 premises connections no greater than 11kV

Ausgrid has certified the electrical design plan(s) SC09681 amendment 0 submitted by your Level 3 Accredited Service Provider (ASP/3). The certification number for this design is 1058261/20170515. Please contact the ASP/3 to obtain the certified design plan(s) and supporting documentation, which can then be used to obtain quotations from Level 1 Accredited Service Providers (ASP/1) to carry out the works depicted in the design.

Ausgrid is pleased to make you an offer to provide standard connection services in respect of the premises referred to in the attached *connection application*. Our connection offer is enclosed. It will remain open for acceptance for 45 business days from the date of this letter. Ausgrid will provide the *standard* connection services for this connection in accordance with its standard form connection contract known as **Contract for Connection Services for Contestable ASP/1 Connections**.

The contract terms of that contract and the **schedule to the certified design** are enclosed with and form part of the connection offer. If you accept Ausgrid's offer, then on the date Ausgrid receives your Acceptance of Offer form and verifies that it is accurate, the **Contract for Connection Services for Contestable ASP/1 Connections** will commence. If you have applied for the *connection* on behalf of the *retail customer* or *real estate developer* who requires the connection, you will be accepting the offer as that person's agent. The contract will be between Ausgrid and the *retail customer* or *real estate developer*.

The **Contract for Connection Services for Contestable ASP/1 Connections** relates to the services Ausgrid performs in relation to the construction and installation of assets by an *accredited service provider* Level 1 (ASP/1). Details of the contractual relations between Ausgrid, the person who requires the *connection* and the ASP/1 are set out in our *Contract Terms*.

Ausgrid has appointed a Project Officer to co-ordinate the services Ausgrid will provide under the contract if you accept the *connection offer*. If you have any queries about the connection contract or the project to *connect the premises* to our network, please contact our Project Officer.

How to accept the Connection Offer

Ausgrid's connection offer is made on the date shown at the head of this document ("15 May 2017").

If you wish to accept the offer, you must sign the attached Acceptance Form and return it to Ausgrid at the address shown on the Acceptance Form within 45 business days of today's date. Note that a tax invoice will be generated based on the details provided on the form.

The enclosed **Summary of Charges** details the associated construction fees and charges for this work. Please return the completed form with completed and signed Acceptance of Connection Offer. An invoice will be raised and forwarded to you separately in due course.

What to Do Next

- ☐ Contact the ASP/3 designer to obtain the certified design plan(s) and supporting documentation.
- ☐ Read and accept the Connection Offer attached by returning the acceptance form before the expiry date of the 14 July 2017.
- ☐ Complete and return the Summary of Charges form before the expiry date.
- ☐ Engage an ASP/1 and advise Ausgrid of their details.
- ☐ Pay the fees and charges detailed on the invoice that will be separately forwarded to you in due course.
- ☐ In conjunction with your ASP/1, prepare and forward the table of critical dates to Ausgrid for acceptance

Should you require any further information please contact me on the phone number or email address detailed below.

Yours sincerely,

OFFER to provide standard connection services for ASP/1 contestable premises connections no greater than 11kV

Connection Offer Date: 15 May 2017

Expiry Date: 14 July 2017

Ausgrid Project Number: SC09681

Ausgrid Certified Design Number: 1058261/20170515

Connection Offer

This connection offer is made in response to the *connection application* you have submitted for a *new connection* to the electricity distribution system operated by Ausgrid or a *connection alteration* to an existing *connection*. The *connection services* we offer are **standard connection services**.

Ausgrid offers to *connect* the *premises* in accordance with the provisions of the enclosed *schedule to the certified design*, *contract terms* and the *certified design*, which is the design certified by Ausgrid and given the *certified design* number detailed above. A copy of the *certified design* is available only from your ASP/3. The *schedule to the certified design* also contains an estimate of Ausgrid's *connection charges* which are likely to arise in relation to the construction of the *distribution system* assets required in order for you to *connect*.

Ausgrid determines the maximum *capacity* of the *connection* and may revise the approved *capacity* downwards after two (2) years if the maximum has not been achieved in order to relieve a *network constraint*. If you disagree with this approach, you can choose not to accept the *connection offer* and elect to negotiate a negotiated connection contract with Ausgrid.

In accordance with the contract terms, Ausgrid will either bill you, your *retailer* or an *electrical professional* acting on your behalf for *connection charges* incurred under the *contract*. Other than the charges billed to your *retailer*, you are responsible for ensuring those *connection charges* are paid. Consistent with its *connection policy*, Ausgrid requires upfront payment of a portion of its alternative control services by you prior to Ausgrid undertaking any further *connection services*. We will invoice you for these fees as soon as possible and we require payment in accordance with the payment terms of the invoice. Ausgrid's payment terms are twelve (12) business days from date of invoice.

The respective rights and obligations of Ausgrid and persons who require a *connection* are regulated by the National Energy Retail Law and Chapter 5A of the National Electricity Rules, both as adopted in New South Wales. This offer is made in accordance with that these laws.

If you intend to proceed with the project to which the *certified design* relates, you must formally accept this *connection offer* by signing and returning the attached Acceptance of Offer unless you elect to negotiate a different *connection offer*.

This *connection offer* will expire if not completed after twelve months and a new *connection application* will need to be submitted. See clause 21.1(a).

Acceptance of Connection Offer

Ausgrid Project Number: SC09681

To: Ausgrid – Contestability Group

Attention: Joe Marcon - Level 1, Building 4, 130 Joynton Avenue Zetland NSW 2017

Date of Acceptance: _____ (Applicant to insert Date)

The connection applicant accepts Ausgrid's connection offer in respect of the Ausgrid Project Number referred to above. In signing this offer I agree that I have read and understood the terms and conditions of the *connection offer* (including the connection offer summary) and including in relation to the billing and payment of *connection charges*. Where this *connection application* is being made on behalf of a *retail customer* or *real estate developer*, I declare that I have obtained the authority of that person to accept this offer on their behalf.

Please note that a tax invoice will be generated based on the details provided on this form.
Changes to this information following invoice processing will result in additional charges.

Connection Application - Large, Multiple and Remote Connections

FORM NECF-03

Who should use this form

Use this form if you:

- require a new or altered service connection greater than 100 Amps **OR**
- require new infrastructure to provide electricity to a subdivision of land **OR**
- require a new or altered connection at high voltage **OR**
- require a new or altered service connection at 100 Amps **WHERE**
 - the development comprises more than 6 separate units **OR**
 - any item of plant or equipment is rated at 30 amps or more

For other connections use NECF-02 Connection Application - Residential and Small Commercial Connection
