Dear Ms Warton,

**EXHIBITION OF ENVIRONMENTAL ASSESSMENT FOR THE DR CHAU CHAK WING
BUILDING, UTS, SYDNEY (MP09_0153)**

I refer to your letter dated 19 May 2011 seeking advice on the above mentioned proposal. The Department of Transport (DoT) appreciates the opportunity to provide input to this application.

The DoT has reviewed the Environmental Assessment report and supports the reduced number of car parking spaces for the site. The DoT also encourages and supports the intention to provide additional access and other active uses in the future, as part of a potential extension to the Ultimo Pedestrian Network. The DoT has no objection to the proposed development.

The DoT supports the completion of a Travel Access Guide (TAG)/ Green Travel Plan, and requires that this include measures to actively promote the use of public transport, walking and cycling. The following types of measures are encouraged as part of Travel Plans:

- Purchase of bulk public transport tickets at a discount rate for staff and students;
- Providing discounts on bicycle equipment, or purchasing bikes for rental by staff and students;
- Raising awareness of public transport, walking and cycling options; and
- Providing guides and local maps.

Further information on Travel Plans can be found on the Premier's Council for Active Living (PCAL) website (<http://www.pcal.nsw.gov.au/>). Should you wish to discuss this matter further, please contact Naomi Brissett on 8202 2332 or email naomi.brissett@transport.nsw.gov.au.

Yours sincerely

22/6/11
