

Hi Emma,

A few comments for your consideration:

- Proposed Condition A – this should be ‘tightened up’ a bit to also have some sort of ‘approval’ reference for whatever actions are necessary, prior to issuing the SWC. As it stands, the condition only requires forwarding a report (plus undefined ‘assessment’) to BCD for comment. Council suggests some amendments **in red** hereunder. We are trying to clarify/ensure that a satisfactory plan of action will be in place prior to issuing a SWC.
- Council would recommend that the Department make use of the BCD’s offer to assist with wording of conditions in order that they satisfactorily address the points raised by BCD.
- Your consideration suggest wording condition A2 slightly differently, as follows

A2. The results of this further investigation are to be used to develop an appropriate proposal for the avoiding, mitigation and offsetting of impact on Macadamia species, with the proposal provided to the BCD for comment.

Regards,

Denise Galle Murwillumbah NSW Time
Team Leader Development Assessment

Ignore the red text just go with the A2 version :

A2. The results of this further investigation are to be used to develop an appropriate proposal for the avoiding, mitigation and offsetting of impact on Macadamia species, with the proposal provided to the BCD for comment.
