To Whom It May Concern

**Re: Modification Request – Woodlawn Bioreactor site
(MP 10_P0012 MOD 1 and DA Q91/00233 MOD 2)**

Thank you for the opportunity to provide advice on the above matter. This is a response from NSW Department of Industry – Geological Survey of New South Wales (GSNSW).

Specific Issues

Please note Special (Crown & Private Lands) Lease 20 (Heron Resources Ltd - Woodlawn Zinc-Copper Project) exists over the subject site. GSNSW has consulted with the Exploration Manager for the Woodlawn Project regarding potential impacts to exploration and mine development plans. GSNSW has been advised that discussions between the proponents of the Woodlawn Project and Veolia Environmental Services (Australia) Pty Ltd regarding the proposed modification have been undertaken. GSNSW recommends ongoing consultation.

GSNSW may receive additional comments from the proponents of the Woodlawn Project regarding the proposed modifications and will provide any relevant additional comments to the Department of Planning & Environment.

Geoscience Information Services

The GSNSW has a range of online data available on line through the following website address:

<http://www.resources.nsw.gov.au/geological/online-services>

This site hosts a range of data to enable research into exploration, land use and general geoscience topics. Additionally, the location of exploration and mining titles in NSW may be accessed by the general public using the following online utilities:

1. **MinView** allows on-line interactive display and query of exploration tenement information and geoscience data. It allows spatial selection, display and download of geological coverages, mineral deposits and mine locations, geophysical survey boundaries, drillhole locations, historical and current exploration title boundaries and other spatial datasets of New South Wales. This online service is available at:
<http://www.resources.nsw.gov.au/geological/online-services/minview>
2. **NSW Titles** enables the public to access and view frequently updated titles mapping information across NSW. This online service is available at:
<http://nswtitles.minerals.nsw.gov.au/nswtitles/>

Queries regarding the above information, and future requests for advice in relation to this matter, should be directed to the GSNSW Land Use team at landuse.minerals@industry.nsw.gov.au.

Yours sincerely

Cressida Gilmore
Team Leader - Land Use
