Hi Jordan,

Good chatting last week.

I'll touch base with you tomorrow, but please find a proposed audit team, with CVs and roles below.

Team Member	Expertise / Qualifications	Audit Role
Dr Andrei Woinarski	Senior Principal PhD, EPA-accredited site auditor (NSW), CEnvP SC	Lead Auditor Expert – hydrogeology, water balance, contamination management
Suanna Harvey	Senior Principal EPA (Victoria) Appointed Auditor – Industrial Facilities	Auditor Expert – waste and leachate management
Kate Robinson	Associate Scientist	Audit Assistant

If engaged, we wouldn't have the capability to turn this around before end of year – perhaps it would be realistic to correspond with various regulators, obtain relevant information from Veolia and initial review, with early 2025 being a site inspection/interview and reporting.

If the team/rough timeline is acceptable, we can prepare a proposal, or wait for feedback from Department of Planning. Please let me know if otherwise.

Thanks again for getting in touch.
