Subject: Badgerys Creek Quarry & Brickworks – Visual Impact Management Plan Nov 2025

Dear Mr O'Reilly,

I refer to your submission of the above updated plan. I acknowledge that Goodman has taken ownership of the areas of land within the consent boundary relevant to the activities managed by this plan.

I note that brickmaking at the site has ceased and only minor extraction activities are ongoing, with development of the site focused on rehabilitation in anticipation of the future development proposed under SSD-97711727 and SSD-97688711.

I have reviewed the plan in light of the reduced risk associated with the activities currently undertaken at the site and consider that it meets the relevant conditions of consent subject to the relabelling of Figure 1 and Figure 2 to reflect the "Project Area Boundary" and "Site Boundary" as per Appendix 2, Figure 1 of MP10\_0014.

Once this change is made and the document is resubmitted for information to the planning portal, it is considered approved.

You are reminded that if there are any inconsistencies between the plan and the conditions of approval, the conditions prevail.

If you wish to discuss the matter further, please contact me via email at [carl.dumpleton@planning.nsw.gov.au](mailto:carl.dumpleton@planning.nsw.gov.au) or on 9274 6283.

Yours sincerely

Carl Dumpleton  
Team Leader  
Resource Assessments

As nominee of the Planning Secretary
