Dear Ms Arancibia

Badgerys Creek quarry and Brick Making Project (MP10_0014)
Request for approval of updated staging plan

I refer to your request for approval of a more detailed staging plan for Phase 1 of the project, for the purpose of Updating and Staging of Strategies, Plans and Programs submitted in accordance with Condition 6 of Schedule 5 of the approval for the Badgerys Creek Quarry and Brick Making Project (MP10_0014).

The Department has carefully reviewed your request and is satisfied it is appropriate given that it remains consistent with the approved Phase 1 works and your current review of business operations for this site.

Accordingly, in accordance with Condition 6 of Schedule 5, the Planning Secretary has approved the updated staging for Phase 1 of the project, which can now occur in the following phases:

Phase 1a: The initial phase of development associated with Modification 3 and 4, comprising

- Dewatering of Pits 1,2 and 3
- VENM import of quarry rehabilitation activities and preferential backfilling of Pits 1,2 and 3

Phase 1b: The sub-phase of development associated with Modification 3 and 4, comprising:

- Construction activities
- Brickmaking activities
- Quarrying activities in Pit 3

Please note that this approval does not alter the other approved phases of the project.

Please note that where you intend to reflect this staging in relevant management plans and strategies, you will need to clearly demonstrate that any management actions to be delayed until Phase 1b, clearly relate to the development associated with that sub-phase.

If you wish to discuss the matter further, please contact Robert Hodgkins on 4904 2711.

Yours sincerely

Matthew Sprott
Director
Resource Assessments (Coal & Quarries)
as nominee of the Planning Secretary
