**DEPARTMENT OF PLANNING & INFRASTRUCTURE – MP 10\_0046  
(MODIFICATION 2) - EXTRACTION OF COAL FROM LONGWALL 6 AND AN  
EXTENSION OF THE EXISTING PROJECT APPROVAL UNTIL 30 JUNE 2015.**

---

Dear Madam

Reference is made to your email dated 17 April 2014 regarding the subject major project application modification forwarded to Roads and Maritime Services (RMS) for consideration.

RMS has reviewed the submitted information and notes that the modification would not increase traffic generation. Therefore RMS does not object to the modification subject to any technical implications regarding subsidence being referred to the Wollongong Coal RMS Longwall Mining Technical Committee.

Upon the Department's determination of this matter, it would be appreciated if the Department could forward a copy of the Notice of Determination to RMS within the appellat period for advice and consideration.

Yours faithfully

A handwritten signature in blue ink, appearing to read 'Adam Berry'.
