**Subject:** Project Number C10\_0064/mp10\_0065 Expansion of Terrey Hills Tip

Please be advised that I am objecting to the proposed expansion of the Terry Hills (Kimbriki Tip) as put forward under project plan C10\_0064/MP10\_0065.  
Reference 10/14478-1.

My Concerns are many and varied.

10,000 extra truck loads on Mona Vale road = Noise , congestion,pollution, dangerous impact on road safety.

Dangerous access to Kimbriki Tip.

Odour that already scents the air from composting on certain days will be substantially increased.

Vermin increased .

Similar sites at Eastern Creek and Menai have issues with odours invading neighbouring suburbs.

Current local garbage contractors URM have a bad record of dangerous driving with many incidents in the area impacting safety.

My Wife and I strenuously object to this development being approved.

If you need to contact me please feel free.

Kindest Regards,

Michael & Celia Cohn
