Dear Felicity,  
I emlore that you reject this plan for the following reasons.

- 1 . Smell from site/Dust
2. Traffic issues
3. Saftey
4. Fire control

As a resident of Terrey Hills for over 50 Year i have seen the changes in my area and note that this is not a good proposal. Recently there have been problems of odur/Dust issues comming from the site (refer to warringah council) and if this was to be built no safe gaurds are there for us.

The ammount of traffic on Mona Vale road already is a bottle neck extra trucks entering and leaving will cause problems. Trucks currently speed down Mona Vale road over the 90 Kmh limit every day, more trucks equal more speeding more chance of serious accidents.

What measures are there for when a bush fire comes, to the safety of residents in regards to control and chemical vapours.
