Dear Mr. Mostyn,

Project Approval MP10_0098 MOD 1 Assessment Report- New Stables at Royal Randwick Racecourse

Transport for NSW (TfNSW) has reviewed the draft S75W Application seeking modification to MP10_0098 by introducing construction staging.

TfNSW acknowledges that some works required for the Sydney Light Rail will occur on and immediately adjoining the ATC land, and that these works will be constructed by TfNSW under the Sydney Light Rail Infrastructure Approval (SSI 6042) only.

TfNSW therefore have no further comments on the proposed construction staging of works approved under MP10_0098.

If you have any comments or queries, feel free to contact me on 0418 105 717 or justin.perrot@transport.nsw.gov.au.

Yours sincerely,

Justin Perrott
