Attn: Mr. Daniel Cavallo
A/Director, Government Land and Social Projects

Dear Daniel,

Application No.: MP 10_0131
Proposal - Prince of Wales Health Intensive Care Unit, Randwick

My wife and I object the proposal. We are very old and have serious stress on the unexpected behaviours of the patients.

We may be prohibited to go outdoors in regarding of the said serious stress and our lives will be sure to become deteriorating.

Most of our elderly friends said that they would not visit us if the proposal proceeded. Our social circle will be affected seriously as well.

Please take deliberate consideration that may affect different residents, whatever ages, around here.
