Dear Neville,

Re: Capital II Wind Farm draft Environmental Assessment

Please find enclosed the Capital II Wind Farm draft Environmental Assessment for the consideration of the NSW Department of Planning. As declared on the 30th of April 2010, this project is a *Major Project* to be assessed under *Part 3A (Major Projects) of the Environmental Planning and Assessment Act 1979* and is subject to determination by the Minister for Planning.

The Environmental Assessment has been done based on a wind farm project and associated infrastructure with up to a maximum of 55 wind turbines as generally described in the letter by Infigen Energy Limited to the Department of Planning dated the 28th of April 2010. The assessments have been completed in accordance with the Director-General's Requirements issued on the 3rd of September.

Yours Sincerely,

A handwritten signature in black ink, appearing to read "Laura Dunphy", written in a cursive style.
