Dear Sir/Madam,

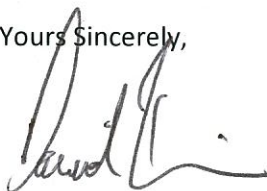

RE: Huntlee Development – Stage 1 Project Application (MP10_0137)

Submission in Response to Public Exhibition

On behalf of Pacific National I would like to confirm Pacific National has no concerns regarding the Huntlee development proposal. Pacific National considers that this development will be beneficial to the Hunter Region's economy and community and therefore has no objections.

The Huntlee development could provide residences and retail facilities for essential labour resources required by the Pacific National Train Support Facility at Greta, which is located adjacent to the Huntlee development. Commercial facilities within the Huntlee development could also be utilised by Pacific National for the supply of materials, equipment and other resources necessary to support the Train Support Facility.

Yours Sincerely,

David Irwin

Divisional General Manager
