STAGE 1.1: LETTERS TO AGENCIES

STAGE 1.1 OUTGOING

Reference: 24018

16 April 2024

To whom it may concern,

RE: STAGE 1: REQUEST FOR INFORMATION FOR ABORIGINAL CULTURAL
HERITAGE ASSESSMENT AT 262 HAKONE ROAD WARNERVALE, NSW

You are receiving this letter due to your organisation being named as a reasonable source of information that must be contacted under Stage 1 (section 4.1.2) of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (Department of Environment, Climate Change and Water NSW 2010) (Consultation Requirements). Section 4.1.2 of the Consultation Requirements makes it the proponent's responsibility to ascertain, from reasonable sources of information such as your organisation, the names of Aboriginal people who may hold cultural knowledge relevant to determining the significance of Aboriginal objects and / or places.

Austral Archaeology Pty Ltd (Austral) has been engaged by Woolworths to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in regard to the retail development at 262 Hakone Road Warnervale, NSW (Lot5211/DP1200804) [the Study Area]. The proposed ACHA is being undertaken to determine the impact that the development will have on Aboriginal cultural material, as part of a Development Application under Part 4 of the *Environmental Planning and Assessment Act 1979*. The study area is situated within the Central Coast Local Government Area (LGA) and is located within the boundaries of the Darkinjung Local Aboriginal Land Council (DLALC). The proposed development includes the construction of a neighbourhood shopping centre including Woolworths, Pet Stock, BWS, Reject Shop, and additional retail spaces as well as a medical space.

Austral will actively seek to involve stakeholders in decisions regarding Aboriginal cultural heritage issues arising from this project. Additional information will be made available to all registered Aboriginal stakeholders as the project progresses. The purpose of consultation is to assist the proposed applicant in the preparation of an Aboriginal Heritage Impact Permit and to assist the Director General of the Department of Premier and Cabinet (DPC) in his or her consideration and determination of the application. The project will be undertaken in accordance with the *National Parks and Wildlife Act 1974*.

In accordance with the consultation requirements, please note that the relevant client contact for this project is:

Shaun Carrey

Project Manager

Woolworths Pty Ltd

1 Woolworths Way

Bella Vista, NSW 2153

Phone: 0431 298 258

Email: scarrey@woolworths.com.au

All correspondence regarding provision of names and contact details of Aboriginal people who may hold cultural knowledge relevant to the project should be provided in writing to:

Lindsay Costigan
Senior Archaeologist
Austral Archaeology
601 Princes Highway
Yallah, NSW 2530
Phone: 0402 745 058

Email: lindsayc@australarch.com.au

Austral requests that your organisation supplies the requested information by Tuesday 30 April 2024. Please note that under Section 4.1.6 of the Consultation Requirements, Austral is required to supply details of all registered Aboriginal stakeholders to Heritage NSW and DLALC.

Please do not hesitate to contact me for further information at the contact details provided below.

Yours sincerely,

Request for Spatial Search of Tribunal Registers

Your assistance in providing information in the correct format will ensure that your search request is dealt with as efficiently as possible. **The completed form must accompany your emailed request.**

It may take up to three working days to provide you with your search results when you submit conventional search criteria (tenement or land parcel identifiers). It may take up to five working days for more complex or larger searches. The Tribunal will contact you if a result cannot be provided within this timeframe.

Parcel Identifiers

The NNTT uses the terminology and formatting of unique identifiers used in each state to uniquely identify a land parcel. Please identify land parcels using the formats below:

1. **Western Australia and Queensland** – use Lot on plan details (e.g. WA - 124/P098764 or QLD - 124DP98764).
2. **New South Wales** – use Lot/Section/Plan details (e.g. 124/7/DP258456 or 124//DP568954).
3. **Northern Territory** - use LAISKEY details (e.g. 695 1256 or 000 2568). The laiskey is a unique identifier for each parcel comprised of the location code, LTO code (derived from the survey plan) where applicable and the parcel number
4. **South Australia** – use Plan/Parcel ID (e.g. H529687AL125). Concatenation of Plan Type, Plan, Parcel Type and Parcel.
5. **Victoria** - use SPI (Standard Parcel Identifier) details (e.g. 1\PP2870 or 9E~\PP3306).

The Search Form

1. Specify only **one jurisdiction** (e.g. Queensland) and **one type of tenure** (e.g. mining tenement) per form.
2. You can add up to 20 separate tenements or parcels per search request. Enter one parcel identifier per form field. Do not use ranges such as lots 5 to 15 on Plan DP1486.
3. **For more than 20 parcels or tenements, please submit additional search requests or alternatively attach an Excel spreadsheet along with your completed search form.** List the parcel identifiers in the correct unique format (see above).
4. If your area of interest cannot be clearly identified from the search form, or is not held in NNTT datasets, we may instead provide search results for a surrounding local government area, or other suitable regional area

Disclaimers and additional notes in relation to timeframes, freehold land and cultural heritage in NSW are addressed on the [Geospatial Searches](#) homepage and these should be referred to prior to lodging your request.

If you have any further queries please contact GeospatialSearch@NNTT.gov.au to discuss.

Dear Kara Oakley-Smith

Thank you for your search request, please find your results below.

Search Results

The results provided are based on the information you supplied and are derived from a search of the following Tribunal databases:

- 0. Schedule of Native Title Determination Applications
- 1. Register of Native Title Claims
- 2. Native Title Determinations
- 3. Indigenous Land Use Agreements (Registered and notified)

Results for overlapping native title matters in NSW:

| Feature ID | Tenure | Cadastral Data As At | Feature Area SqKm | Overlapping Native Title Feature | | | | |
|----------------|----------|----------------------|-------------------|----------------------------------|------|----------|-------------------|--------------------|
| | | | | NNTT File Number | Name | Category | Overlap Area SqKm | % Selected Feature |
| 5211/DP1200804 | FREEHOLD | 8/03/2024 | 0.0900 | No overlap | | | - | 0.00% |

For more information about the Tribunal's registers or to search the registers yourself and obtain copies of relevant register extracts, please visit our [website](#).

Information on native title claims and freehold land can also be found on the Tribunal's website here: [Native title claims and freehold land](#).

Please note: There may be a delay between a native title determination application being lodged in the Federal Court and its transfer to the Tribunal. As a result, some native title determination applications recently filed with the Federal Court may not appear on the Tribunal's databases.

The search results are based on analysis against external boundaries of applications only. Native title applications commonly contain exclusions clauses which remove areas from within the external boundary. To determine whether the areas described are in fact subject to claim, you need to refer to the "Area covered by claim" section of the relevant Register Extract or Schedule Extract and any maps attached.

Search results and the existence of native title

Please note that the enclosed information from the Register of Native Title Claims and/or the Schedule of Applications is **not** confirmation of the existence of native title in this area. This cannot be confirmed until the Federal Court makes a determination that native title does or does not exist in relation to the area. Such determinations are registered on the National Native Title Register.

The Tribunal accepts no liability for reliance placed on enclosed information

The enclosed information has been provided in good faith. Use of this information is at your sole risk. The National Native Title Tribunal makes no representation, either express or implied, as to the accuracy or suitability of the information enclosed for any particular purpose and accepts no liability for use of the information or reliance placed on it.

STAGE 1.2: REGISTRATION OF INTEREST

STAGE 1.2 OUTGOING

Reference: 24018

30 April 2024

RE: STAGE 1: NOTIFICATION OF ABORIGINAL CULTURAL HERITAGE
ASSESSMENT AT 262 HAKONE ROAD, WARNERVALE, NEW SOUTH WALES

Dear whom it may concern,

Austral Archaeology Pty Ltd (Austral) has been engaged by Woolworths Pty Ltd to undertake an Aboriginal Cultural Heritage Assessment (ACHA) in regards to retail development at, 262 Hakone Road Warnervale, NSW 2259 (Lot5211/DP1200804) [the Study Area].

Austral has been made aware that you or your organisation may hold cultural knowledge relevant to determining the significance of Aboriginal objects and / or places. As part of Stage 1 of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (Department of Environment, Climate Change and Water NSW 2010) (the Consultation Requirements), you are invited to register your interest to participate in the ACHA and consultation process for the project.

The proposed ACHA is being undertaken to determine the impact the development will have on Aboriginal cultural material, as part of a Development Application under Part 4 of the *Environmental Planning and Assessment Act 1979*. The study area is situated within the Central Coast Local Government Area (LGA) and is located within the boundaries of the Darkinjung Local Aboriginal Land Council (DLALC). The proposed development includes the construction of a neighbourhood shopping centre including Woolworths, Pet Stock, BWS, Reject Shop, and additional retail spaces as well as a medical space.

Austral will actively seek to involve stakeholders in decisions regarding Aboriginal cultural heritage issues arising from this project. Additional information will be made available to all registered Aboriginal stakeholders as the project progresses. The purpose of consultation is to assist the proposed applicant in the preparation of an Aboriginal Heritage Impact Permit and to assist the Director General of the Department of Premier and Cabinet in his or her consideration and determination of the application. The project will be undertaken in accordance with the *National Parks and Wildlife Act 1974*.

In accordance with the consultation requirements, please note that the relevant client contact for this project is:

Shaun Carrey Project Manager

Woolworths Pty Ltd

1 Woolworths Way

Bella Vista, NSW 2153

Phone: 0431 298 258

Email: scarrey@woolworths.com.au

All correspondence regarding provision of names and contact details of Aboriginal people who may hold cultural knowledge relevant to the project should be provided in writing to:

Lindsay Costigan
Senior Archaeologist
Austral Archaeology
601 Princes Highway
Yallah, NSW 2530
Phone: 0402 745 058

Email: lindsayc@australarch.com.au

As a person or organisation who may hold cultural knowledge relevant to determining the significance of Aboriginal objects and / or places associated with the proposed project, you are invited to register your interest to be consulted for this project. The closing date for registrations of interest is Tuesday 14 May 2024.

Please note that under Section 4.1.6 of the Consultation Requirements, Austral is required, unless you state otherwise, to supply details of all registered Aboriginal stakeholders to Heritage NSW and DLALC as part of this process.

Please do not hesitate to contact me for further information at the contact details provided below.

Yours sincerely,

Hi Kara

We are registering our organisation as we at Corroboree Aboriginal Corporation are identified First Nations people who hold cultural knowledge relevant to this project area and we wish to register an interest in the process of community consultation. As part of our registering we look forward to the opportunity to provide culturally appropriate information and to comment on the cultural heritage significance of Aboriginal Culture and heritage We are registering Corroboree Aboriginal Corporation in a full capacity. We have worked on a vast number of projects as Cultural Heritage Officers in the project area. We are currently involved on many projects in the subject area. My family and other family members have lived in the area and family currently reside in the surrounding areas.

We are registering in a full capacity. We are Aboriginal people who are culturally & heritage aware. We have the necessary ability, experience, skills, insight and the knowledge to identify artefacts on field work. And as Aboriginal People we connect thru the land, thru our Ancestors and our Heritage. Therefore we are able participate on all levels. We have worked with many archaeologists across a broad landscape. We have consulted with most archeological companies over many years on projects. We have all the relevant insurances and safety gear. We are all fit, capable and adapt to a vast landscape.

Contact is preferred via email: corroboreecorp@outlook.com The contact number, email and contact person is also listed in the signature.

Please do not disclose any of our details to LALC. We have responded for inclusion, to participate on all levels. Thanks.

Hi Kara,

Thank you for informing us that **Austral Archaeology** will be involved in an Aboriginal Cultural Heritage Assessment at **262 Hakone Road, Warnervale** & that you are inviting Aboriginal organisations to register, if they wish too be involved in the community consultation process.

As a senior Aboriginal person for over 50yrs, I actively participate in the protection of the Aboriginal Cultural Heritage throughout the Sydney Basin, & particularly throughout Western Sydney, on behalf of Kamilaroi Yankuntjatjara Working Group I wish to provide to you my organisation's registration of interest.

I wish to be involved & participate in all levels of consultation/project involvement. I wish to attend all meetings, participate in available field work & receive a copy of the report.

I have attached a copy of Kamilaroi Yankuntjatjara Working group's Public Liability Insurance & Workers Compensation certificate.

Our RAPS have up to 16yrs Cultural Heritage experience in - field work which involves manual excavation (digging), sieving, identifying artefacts, setting up transits, setting up equipment, packing equipment, site surveys & attending meetings (Focus groups, CwC, interpretation).

Should you wish me to provide further information, please do not hesitate to contact me on 0434545982 or Stefeanie on 0451068480.

Kind Regards

Hi Kara,

Thank you for your email.

Yes, we cover that area. We have drop off points in Lake Haven, Wadalba and Tuggerah and surrounds. I cannot fit your advertisement into this week's newspaper as we are over capacity as it is.

I can fit you into next week's edition which is 9th May.

A quarter page (portrait) advertisement is 130mm (w) x 190mm (h)
The price is \$515 + GST

If you need us to design your advertisement the cost starts at \$25 + GST.

Thanks,

Hi Kara,

Thank you for your email.

Yes, we cover that area. We have drop off points in Lake Haven, Wadalba and Tuggerah and surrounds. I cannot fit your advertisement into this week's newspaper as we are over capacity as it is.

I can fit you into next week's edition which is 9th May.

A quarter page (portrait) advertisement is 130mm (w) x 190mm (h)

The price is \$515 + GST

If you need us to design your advertisement the cost starts at \$25 + GST.

Thanks,

Brad – Graphic Designer | Sales

Good morning!

I'm just emailing to enquire about placing an ad in your paper and confirming that the Coast Community News covers the area of Warnervale/Woongarra.

We are currently looking at the ¼ page sized advert. If an ad is placed today when will this edition be published ?

Hi Kara,

Thank you for your ACHA report for 262 Hakone Rd, the study area is significant and spiritual to our people, there are several waterways running through and around the study area which would have been occupied by Aboriginal people for various activities such as hunting, fishing, camping, ceremonies and potentially burial sites. We agree and support your methodology to investigate further in the way of test excavations. We look forward to working alongside you on this project.

report to guringai update1 06jul21docx-1.pdf;

Hi Felicity,

I'm not sure how I read past this in my review, probably because I'm more focused on the proposed impacts and mitigation measures rather than Historical writings, however this has caused a bit of upset.

4.1 POPULATION AND CONTACT HISTORY

It is severely misquoted, particularly the Tindale and Fraser information and indeed R.H Matthews too.

Please have it from the Final document that this region is occupied by the Darkinjung People as it is not. Renee Sales, granddaughter of Tommy Sales actually lives with me and can share with you facts on this.

In R.H Matthews writings, 'The Burbung of the Dagingun' he clearly describes the Darginoong (as they prefer to spell it) Country and Guringai Country, and is correctly identified as Wannangine.

Dr.Geoff Ford's Thesis, 'Darkinung Recognition' also clearly identifies this region as Wannangine/Wannangini (aka. Guringai). I can share my copy with you if need be but it is a boomerang.

In the meantime, please extract the Final Report and endeavour to amend the false information.

Happy to help and/or connect you with accredited academics that can clear it up. (I'll send the 'Truth Telling' paper by Dr. Jim Wafer, Newcastle Uni, in response to the "Darkinjung Country" signs on the roadways here

on the coast).

My sincere apologies for dropping the ball on this and not reading every part of the document properly. I'm lucky and glad to have Kerrie and our Elders to keep me in line :)

STAGE 3B: NOTIFICATION OF TESTING TO HERITAGE NSW

STAGE 3B OUTGOING

Reference: 24018

6 February 2025

RE: UPDATED METHODOLOGY FOR
ABORIGINAL CULTURAL HERITAGE ASSESSMENT AT
262 HAKONE ROAD, WARNERVALE, NEW SOUTH WALES

To whom it may concern,

You are receiving this letter as a registered Aboriginal party (RAP) for the 262 Hakone Road, Warnervale project.

The following information is being provided to comply with Stage 3 of the *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010* (Department of Environment, Climate Change and Water NSW 2010) [the Consultation Requirements]. This letter relates explicitly to sections 4.3.1 to 4.3.7 of the Consultation Requirements.

The purpose of this letter is to present the proposed methodology to the RAPs for the preparation of an Aboriginal Cultural Heritage Assessment (ACHA) for the project. You are also requested to supply any cultural information you wish to provide that can assist in the identification of Aboriginal objects or places as part of the assessment process. In accordance with Section 4.3.2 of the Consultation Requirements, RAPs are provided with the opportunity to review and provide feedback on the proposed methodology outlined in this letter. Please supply this feedback to:

PRELIMINARY ASSESSMENT

Austral has undertaken a review of documentary sources to understand the Aboriginal heritage values that are likely to occur within the study area.

BACKGROUND

An extensive search of Heritage NSW's Aboriginal Heritage Information Management System (AHIMS) database was conducted on 04 July 2024 (Client service ID: 907049). The search identified 126 Aboriginal archaeological sites within a 6-kilometre search area, centred on the proposed study area (Error! Reference source not found.).

Table 1 AHIMS sites identified within 5 kilometres of the study area

| Site Type | Occurrence | Frequency (%) |
|---|------------|---------------|
| Artefact | 54 | 82% |
| Artefact, PAD | 1 | 1% |
| Modified Tree (Carved or Scarred) | 5 | 7% |
| PAD | 2 | 3% |
| Grinding Groove | 2 | 3% |
| Art (Pigment or Engraving), Grinding Groove | 1 | 1% |
| Shell | 1 | 1% |
| Total | 66 | 100% |

The AHIMS search has identified that there are sites located within and/or in close proximity to the study area; these are identified in Table 2.

Table 2 AHIMS sites identified within or in close proximity to the study area

| Site name / AHIMS No. | Type | Location / extent in relation to study area |
|------------------------------|----------|--|
| OWP ISO 18 #45-3-3421 | Artefact | Approximately 1 km southwest of the study area |
| Lakes G ISO 12 #45-3-3415 | Artefact | Approximately 1.5 km southwest of the study area |
| OWP ISO 17 #45-3-3420 | Artefact | Approximately 1 km south of the study area |

PREDICTIVE STATEMENTS

Based upon the AHIMS search results and a preliminary review of ethnographic, soils, geology, landform, disturbance and resource information pertinent to the study area, Austral has prepared a series of site prediction statements that have been used to inform the project methodology, these are outlined in Table 3.

Table 3 Aboriginal site prediction statements

| Site Type | Predictive Statement |
|--|---|
| Aboriginal ceremony and dreaming sites | Aboriginal ceremony and dreaming sites are rarely occurring within or in close proximity to the study area. There is a low likelihood for the presence of this site type to be present within the study area. |
| Aboriginal places | Aboriginal places are not known to occur within or in close proximity to the study area. There is a low likelihood for the presence of this site type to be present within the study area. |
| Artefact sites | Artefacts and artefact scatters are the most common site type in the area and are most likely to occur on raised, level ground, near sources of freshwater or wetlands, or along spur crests or ridgelines. There is a high likelihood for the presence of these sites within the study area. |
| Axe grinding grooves | Axe grinding grooves are unlikely to occur within or in close proximity to the study area. There is a low likelihood for this site type to be present within the study area. |
| Burials | Burials are known to occur within landforms such as dry/salt lakes with source bordering dunes and lunettes, which are not present within the study areas. There is a low likelihood for the presence of these site types to be present in the study area. |
| Modified trees | Modified trees are rarely occurring within or in close proximity to the study area. There is a low likelihood for the presence of this site type to be present within the study area. |
| Potential archaeological deposits (PADs) | PADs are rarely occurring within or in close proximity to the study area. There is a low likelihood for the presence of these site types to be present in the study area. |
| Rock Shelters with art and/or deposit | Rock shelters with art and/or deposits are not known to occur within or in close proximity to the study area. There is a low likelihood for the presence of this site type to be present within the study area. |
| Shell middens | Shell middens are not known to occur in close proximity to the study area near sources of fresh water and coastal wetlands. There is a low likelihood of this site type occurring within the study area. |
| Stone quarries | Stone quarries are not known to occur within or in close proximity to the study area. There is a low likelihood of these sites being present within the study area. |

ASSESSMENT METHODOLOGY

The following section outlined the assessment methodology to be employed in the preparation of the ACHA.

SURVEY METHODOLOGY

An archaeological survey was conducted on 10 May 2024 with selected RAPs in attendance.

The survey conformed to Requirements 5 to 10 of the *Code of Practice for Archaeological Investigation of Aboriginal Objects in New South Wales (CoP)* (DECCW 2010). The method employed during the survey was aimed at recording all (or a representative sample of all) evidence of Aboriginal land use that are visible on the surface. An assessment of the likelihood of material traces of Aboriginal land use being present under the ground surface (potential archaeological deposits) was also completed. The survey was completed in accordance with a sampling strategy that ensured that all landforms that may be impacted by the project were inspected.

Recording during the survey consisted of both photographic and written recording techniques. Representative photographs of survey units and landforms were taken, and all photographs included a graded metric scale. Where Aboriginal objects are identified during the survey, their diagnostic attributes will be recorded, and each object was be photographed (as per Requirements 6 and 7 of the *CoP*).

Survey units were inspected using pedestrian transects following the methodology set out in Burke and Smith (2004, pp.74–80). The survey documented the conditions present to assess the effectiveness of the survey. The following aspects of the survey were recorded:

- Visibility and exposure for each survey unit.
- Landform and general soil location for each survey unit.
- Land surface and vegetation conditions encountered during the survey.
- Survey coverage in accordance with Requirement 9 of the *CoP*.
- Where Aboriginal objects are identified, the spatial extent of direct evidence and the physical boundaries of each site will be determined.
- The extent of disturbances and an assessment of the integrity of known or likely Aboriginal sites.

All survey data will be collected using Global Positioning System (GPS) enabled devices and the Map Grid of Australia (94) coordinate system.

TEST EXCAVATION METHODOLOGY

To fully assess the nature and extent of the archaeological deposit, Austral has developed an archaeological testing methodology which follows the requirements of the *CoP*.

The test excavations will consist of approximately 90 500- x 500-millimetre test pits across a systematic 20-metre grid in areas considered to have high and moderate archaeological sensitivity. The results of the archaeological survey may alter the approach to archaeological test excavations within the study area.

Our test excavation methodology is based on the *CoP* which states that all 'test excavations must be excavated using hand tools only' and 'the first excavation [pit] must be excavated in 5-centimetre spits at each area – either PAD or site – being investigated. Based on the evidence of the first excavation [pit], 10-centimeter spits or sediment profile/stratigraphic excavation (whichever is smaller) may then be implemented' (Department of Environment, Climate Change and Water 2010, p.26). The *CoP* is also clear on how many test pits should be excavated and their placement.

The test excavation will conform with Requirement 16 of the *CoP*. This will include:

- The hand excavation of 500 x 500 millimetre test pits across a systematic 20-metre grid in areas considered to have moderate archaeological sensitivity.
- All excavation will be conducted by hand, and the excavation of initial test pits will proceed in 50-millimetre spits. Based on the results of the initial test pits, subsequent test pits will be excavated either in 100-millimetre spits or by stratigraphic unit, dependant on which unit is smaller.
- Recording of each test pit will be conducted during excavation using either printed *pro forma* or with digital *pro forma* stored on an electronic tablet.

- 100% of excavated potential artefact bearing deposit will be sieved using 5-millimetre screens. Austral has allowed for dry sieving as part of the excavation program. Dependant on the soils encountered and site conditions, material may need to be wet sieved. Water for the sieving station would be provided by a water tanker and pump.
- Artefacts will be collected from the sieves and bagged according to excavation pit provenance. Each test pit will be backfilled to the best of our ability with the sieved material excavated from the pits at the conclusion of the testing program.

ARTEFACT COLLECTION AND STORAGE

Collection and salvage of all artefacts will be undertaken according to the following methodology.

- Each artefact identified during the subsurface testing will be relocated and temporarily stored at Austral's head office located at 601 Princes Highway, Yallah, NSW 2530. After the submission of the final subsurface testing report, the collected Aboriginal material will be taken to a location within or near to the study area previously agreed upon by the proponent and all registered Aboriginal stakeholders for reburial in accordance with requirements of the *CoP*.
- The landowner on whose property this area may be located is to be approached for consent to return the Aboriginal archaeological material to site. If the site where the artefacts are to be returned is situated upon Crown Land then the appropriate authority managing the Local Government Area is to be approached and informed.
- A representative of all RAPs and Woolworths Pty Ltd are to be invited to attend/participate in the return of artefacts to country.
- A GPS recording of the location is to be made and recorded as a new Aboriginal site. A site card will be completed, and the resulting site registered on Heritage NSW's AHIMS database.

Should it be necessary to move these artefacts at a later date, it is a requirement that a Care and Control agreement be completed as part of any Aboriginal Heritage Impact Permit application. This will require the identified Aboriginal stakeholders and Heritage NSW to be consulted over a suitable relocation site. This new site will also require GPS coordinates and all necessary details to be recorded with Heritage NSW's AHIMS database.

CARE AND CONTROL OF ABORIGINAL OBJECTS

As stated previously, all cultural material will be temporarily stored at Austral's Yallah office. Once this has been analysed, all cultural material will be subject to the following process:

The Care and Control of Aboriginal objects will be negotiated with RAPs as part of the consultation process included in the ACHA. This will be enacted into a Care and Control agreement.

Aboriginal objects may also be returned to country and reburied as soon as practicable in accordance with requirements 16b and 26 of *CoP*.

Austral requests that RAPs provide any preferences they have for the care and control of Aboriginal objects as part of the review of this document.

REPORTING

Austral will complete an ACHA that includes the results of the Aboriginal community consultation undertaken. The ACHA will consist of:

- Introduction
- Planning Framework
- Aboriginal Background
- Site Analysis
- Maps and Site Plans etc.
- Aboriginal Stakeholder Consultation including all submissions received from RAPs and responses to the issues raised.
- Assessment of Archaeological Potential
- Archaeological Testing Analysis and Results
- Impact Assessment
- Conclusions and Management Recommendations

Please do not hesitate to contact me for further information at the contact details provided below.

Hi Lindsay,

Thank you for sharing the updated methodology. I have reviewed the document and fully support the information and methodology presented.

I would like to be included in all meetings, reports, sharing of cultural information, and fieldwork, as I own a home at Canton Beach, which is conveniently only 15 minutes away from the project location.

A little about myself: I am a Traditional Owner with over 25 years of experience in preserving Aboriginal cultural heritage on various projects. My extensive cultural knowledge is crucial in determining the significance of Aboriginal objects and values in the project area.

Please let me know if there are any upcoming meetings or fieldwork schedules that I can join.

I have attached A1 Indigenous Services Insurances.

Hi Zoe,

I hope this message finds you well. I have reviewed the information and would like to include a new cultural initiative that we've developed, which is a more respectful way of returning our artefacts back to their country. Please find attached a brochure for our Narrbang bags, a kangaroo skin bag created specifically for repatriations. This change has been long overdue. I would like to include this method if any repatriation is needed.

We believe it is a significant step towards honouring the vessel that our artefacts are placed in and repatriated. The Narrbang bags represent a more respectful approach, emphasizing cultural sensitivity and respect for the artefacts and their origins. We hope you find this initiative as meaningful as we do.

CARE AND CONTROL AGREEMENT

OUTGOING

Reference: 24018

28 August 2025

**RE: 262 HAKONE ROAD, WARNERVALE ABORIGINAL CULTURAL
HERITAGE ASSESSMENT - REGISTERED ABORIGINAL PARTY
UPDATE**

To whom it may concern,

As a Registered Aboriginal Party (RAP) for the Aboriginal Cultural Heritage Assessment (ACHA) being undertaken for the Warnervale Shopping Centre at 262 Hakone Road, Warnervale, New South Wales, Austral is writing to you to provide feedback relating to placement of the artefacts obtained from AHIMS 45-3-4994 (Hakone Road Isolated Artefact 1), AHIMS 45-3-4995 (Hakone Road Artefact Scatter 1), and AHIMS 45-3-4996 (Hakone Road Artefact Scatter 2), under a Care and Control Agreement with Tracey Howie, Director of Wannangini, a RAP for this project. Woolworths has chosen to pursue this option to ensure harm to the artefacts is avoided during future development of the property, and so the artefacts can be utilised to teach community members about local stone tool technology.

If you have any feedback or comments on this Care and Control agreement, please provide a response by **10 September 2025**.

Yours sincerely,

Care and Control Letter to R...
91 KB

To whom it may concern,

Please see attached a letter regarding the proposed Warnervale Shopping Centre at 262 Hakone Road, Warnervale NSW.

If you could please provide input on the Care and Control Agreement by **10 September 2025**, that would be greatly appreciated.

Kind regards,

Brendan Fisher
