

Director-General's Requirements

Section 75F of the *Environmental Planning and Assessment Act 1979*

Application number	MP 10_0200 – Seashores Precinct
Project	Project Application for construction of a 5 storey Residential Building
Location	Seashores Precinct, Breakfast Point - 19-21 Tennyson Road, Mortlake (Canada Bay LGA)
Proponent	Rosecorp Management Services Pty Ltd
Date issued	21 FEBRUARY 2011
Expiry date	If the Environmental Assessment (EA) is not exhibited within 2 years after this date, the applicant must consult further with the Director-General in relation to the preparation of the environmental assessment.
Key issues	The Environmental Assessment (EA) must address the following key issues: 1. Relevant EPI's policies and Guidelines to be Addressed - Planning provisions applying to the site, including permissibility and the provisions of all plans and policies contained in Appendix A. 2. Concept Plan - The EA shall demonstrate consistency with The Breakfast Point Concept Plan 2005 (including relevant modifications) and justification for any areas of inconsistency. 3. Built Form and Height - The EA shall address the height, bulk and scale of the proposed development within the context of the locality and the approved Concept Plan. 4. Urban Design - The EA shall address the design quality with specific consideration of the façade, massing, setbacks, building articulation, use of appropriate colours, building materials, landscaping, 'safer by design' principles and public domain. 5. Environmental and Residential Amenity - The EA must address solar access, acoustic privacy, visual privacy, view loss and achieve a high level of environmental and residential amenity. 6. Transport & Accessibility Impacts (Construction and Operational) - The EA must demonstrate the provision of sufficient on-site car parking for the proposal having regard to local planning controls and RTA guidelines. The EA shall also provide a Traffic Impact Study prepared in accordance with the RTA's Guide to Traffic Generating Developments, considering traffic generation, any required road / intersection upgrades, access, car parking arrangements, measures to promote public transport usage and pedestrian and bicycle linkages. - The EA must demonstrate compliance with the approved visitor parking numbers/allocations.

	7. Ecologically Sustainable Development (ESD) - The EA shall detail how the development will incorporate ESD principles in the design, construction and ongoing operation phases of the development. - The EA must demonstrate that the development has been assessed against a suitably accredited rating scheme to meet industry best practice. - Details of a BASIX compliance certificate to achieve satisfactory levels of thermal comfort and water and energy ratings for the proposed development. 8. Contributions - The EA shall address the provision of public benefit, services and infrastructure having regard to Council's Section 94 Contribution Plan and provide details of any Voluntary Planning Agreements or other legally binding instrument proposed to facilitate this development and to be consistent with the terms of the approved Concept Plan. 9. Contamination - The EA is to demonstrate compliance that the site is suitable for the proposed use in accordance with SEPP 55. 10. Landscaping - The EA must explain the type, function and landscape character of the various open spaces on site, and clearly identify deep soil zones, and the manner in which these zones are to be treated. Pedestrian circulation and linkages between various open areas should be demonstrated in a schematic form. 11. Public Domain - The EA is to address public domain improvements, pedestrian linkages and street activation; 12. Drainage - The EA shall address stormwater, drainage infrastructure and incorporation of Water Sensitive Urban Design measures. 13. Statement of Commitments - The EA must include a draft Statement of Commitments detailing measures for environmental management, mitigation measures and monitoring for the project. 14. Utilities - In consultation with relevant agencies, the EA shall address the existing capacity and requirements of the development for the provision of utilities. 15. Consultation - Undertake an appropriate and justified level of consultation in accordance with the Department's <i>Major Project Community Consultation Guidelines October 2007</i>.
Deemed refusal period	60 days

APPENDIX A

Relevant EPI's policies and Guidelines to be addressed

- Objects of the EP&A Act 1979
- NSW State Plan 2010;
- Draft Inner West Subregional Strategy;
- Metropolitan Plan of Sydney 2036;
- Metropolitan Transport Plan 2010;
- Urban Transport Statement;
- Canada Bay Local Planning Strategy 2010;
- Canada Bay Local Environmental Plan 2008 and other relevant Development Control Plans;
- SEPP (Building Sustainability Index: BASIX) 2004;
- Breakfast Point Visitor Car Parking Master Plan
- Breakfast Point Landscape Master Plan
- SEPP 55 - Remediation of Land;
- SEPP 65 - Design Quality of Residential Flat Development (SEPP 65) and the Residential Flat Design Code (RFDC);
- SREP (Sydney Harbour Catchment) 2005;
- Draft Sea Level Rise Policy Statement (NSW Government, October 2009)
- Nature and extent of any non-compliance with relevant environmental planning instruments, plans and guidelines and justification for any non-compliance.

Plans and Documents to accompany the Application

<u>General</u>	The Environmental Assessment (EA) must include: 1. An executive summary; 2. A thorough site analysis including site plans, areal photographs and a description of the existing and surrounding environment; 3. A thorough description of the proposed development; 4. An assessment of the key issues specified above and a table outlining how these key issues have been addressed; 5. An assessment of the potential impacts of the project and a draft Statement of Commitments, outlining environmental management, mitigation and monitoring measures to be implemented to minimise any potential impacts of the project; 6. The plans and documents outlined below; 7. A signed statement from the author of the Environmental Assessment certifying that the information contained in the report is complete and neither false nor misleading; 8. A Quantity Surveyor's Certificate of Cost to verify the capital investment value of the project (in accordance with the definition contained in the Major Development SEPP); 9. Details demonstrating that any fill brought onto the site is contamination free, and from where obtained; 10. Details of where all excavated material leaving the site is to be placed; and 11. A conclusion justifying the project, taking into consideration the environmental impacts of the proposal, the suitability of the site, and whether or not the project is in the public interest.
<u>Plans and Documents</u>	The following plans, architectural drawings, diagrams and relevant documentation shall be submitted; 1. An existing site survey plan drawn at an appropriate scale illustrating; • the location of the land, boundary measurements, area (sq.m) and north point; • the existing levels of the land in relation to buildings and roads; • location and height of existing structures on the site; • location and height of adjacent buildings and private open space; and • all levels to be to Australian Height Datum. 2. A Site Analysis Plan must be provided which identifies existing natural elements of the site (including all hazards and constraints), existing vegetation, footpath crossing levels and alignments, existing pedestrian and vehicular access points and other facilities, slope and topography, utility services, boundaries, orientation, view corridors and all structures on neighbouring properties where relevant to the application (including windows, driveways, private open space etc). 3. A locality/context plan drawn at an appropriate scale should be submitted indicating: • significant local features such as parks, community facilities and open space and heritage items; • the location and uses of existing buildings, shopping and employment areas; • traffic and road patterns, pedestrian routes and public transport nodes.

	4. Architectural drawings at an appropriate scale illustrating: • the location of any existing building envelopes or structures on the land in relation to the boundaries of the land and any development on adjoining land; • detailed floor plans and elevations of the proposed buildings; • elevation plans providing details of external building materials and colours proposed; • fenestrations, balconies and other features; • accessibility requirements of the Building Code of Australia and the Disability Discrimination Act; • the height (AHD) of the proposed development in relation to the land; • the level of the lowest floor, the level of any unbuilt area and the level of the ground; and • any changes that will be made to the level of the land by excavation, filling or otherwise. 5. Other documents / plans: • Stormwater Concept Plan - illustrating the concept for stormwater management; • Erosion and Sediment Control Plan – plan or drawing that shows the nature and location of all erosion and sedimentation control measures to be utilised on the site; • Geotechnical and Structural Report prepared by a recognised professional which assesses the risk of geotechnical failure on the site and identifies design solutions and works to be carried out to ensure the stability of the land and structures and safety of persons. • View Analysis - Visual aids such as a photomontage must be used to demonstrate visual impacts of the proposed building envelopes in particular having regard to the siting, bulk and scale relationships from key areas; • Landscape plan - illustrating treatment of open space areas on the site, screen planting along common boundaries and tree protection measures both on and off the site; • Shadow diagrams - showing solar access to the site and adjacent properties at summer solstice (Dec 21), winter solstice (June 21) and the equinox (March 21 and September 21) at 9.00 am, 12.00 midday and 3.00 pm; and • Construction Management Plan and Traffic Management Plan – addressing the management of traffic (including bus operations) during the construction stages of the development. • Access Report – to be prepared demonstrating compliance with the various Discrimination and Disability regulations for the building and open space areas, as well as access to the surrounding public spaces.
<u>Documents to be submitted</u>	• 1 copy of the EA, plans and documentation for the Test of Adequacy; • Once the EA has been determined adequate and all outstanding issues adequately addressed, 7 hard copies of the EA for exhibition; • 2 sets of architectural and landscape plans at A1 size and appropriate scale; and • 7 copies of the Environmental Assessment and 7 copies on CD-ROM (PDF format), each file not exceeding 5Mb in size.

NOTE:

Each file must be titled and saved in such a way that it is clearly recognisable without being opened. If multiple pdf's make up one document or report, these must be titled in sequential order.
