---

Dear Sir

**RE: Submission for MP 11\_0015, Mixed Use Redevelopment of Balmain Leagues Club**

I **object** to the development for the following reasons:

I object strenuously to this development

Traffic will be chaos and there is no way to resolve this no matter how many plans are made. The streets nearby are already congested and crossing Victoria Road at Darling Street now takes ages longer than it should.

The local character will be changed forever by this inappropriate development.

This inappropriate development should not be about a football club and it is disappointing the club should impose this development on the community it hopes will support it.

The development should be refused.

My details are as follows:

Lilyfield  
2040

Have I made a disclosable political donation? Yes

I request that my name be withheld
