Also i wanted to mention, I am willing to compromise on there application if it turns out they can proceed to turn it from hotel amenity to public bar. I think 150 people, midday to 10pm, 7 days a week as in there application is ridicules. The big problem is once it gets over 30 people the chatter alone is awful and makes it impossible to have your windows open. If it was up to me to compromise it should be 6pm to 10pm Thursday, Friday and Saturday night only for the summer/spring months of the year. That way myself and residents can at least enjoy having windows open fresh air during day light hours (especially the weekends when we are mostly home from work).
